Emergency Response Seminar - Mid Winter 2026

If someone falls, don't try to catch them. If you try to catch them you may injure yourself.

You are the help until help arrives. Until help arrives, Join hands and raise your arms high around the person.

- One person should stay on the ground with the patient, listen to the fallen person and help as appropriate.
- Someone needs to be assigned to contact 911.
 - Know the address of location you are at (aka building address, able to describe the building)
 - Someone needs to meet 911 outside of the building and direct them to the fallen/injured person when 911 arrives
 - The person contacting 911 also needs to control the bystanders
- Don't move the patient
- Give aid to the patient within your level of training
- Follow any directions given to you over the phone by the 911 operator
- If the location has an AED, get that and have it available if it needs to be used.

It is suggested that everyone places a sticker on the back of your badge with your emergency contact information.

Twenty-Five percent of senior hospitalizations are caused by falls

After the Emergency has passed:

Complete Insurance Forms

Liability Coverage

Secondary personal Coverage

Forms can be found at:

Squaredance.org

Squaredance.gen.or.us

Forms should be submitted within 24hours. If possible they should be filled out right after the incident has happened.

At the Aloha Grange, we do have an AED unit and above the unit is a clipboard with all the forms that need to be filled out. Thanks go out to Ron and Joann Swanson for making sure the grange has an AED unit and all of the needed forms.
